

System type – GypLyner ceiling

Product Substantiation Report (PSR) reference – **C154006(a)**

Performance characteristics

Ceiling Fire Resistance (BS 476):	60 mins
Airborne Laboratory Sound Resistance (BS EN 717):	59 R_wdB
Impact Laboratory Sound Transfer (BS EN 717):	59 L_{nw}dB
Ceiling depth below structure (excluding finishes):	75 – 170mm

Performance criteria stated above relates to GypLyner suspended ceiling installed below a **timber joist structure with wood flooring** of following minimum characteristics.

Timber joist minimum width:	45mm
Timber joist maximum centres:	450mm
Minimum thickness & grade of flooring:	Minimum 18mm tongued & grooved wood board flooring

Framing components

Ceiling Section installed maximum centres:	450mm
Lining channel reference:	Gypframe GL1 Lining Channel
Suspension reference:	GL2/GL9/GL12 at 1200mm centres
Acoustical sealant:	Gyproc Sealant applied around perimeter of ceiling
Drawing references:	Refer to relevant Architects drawings

Plasterboard components

Number of plasterboard layers:	3								
Gyproc plasterboards:	<table border="0"> <tr> <td>Layer 1 (Inner):</td> <td>19mm Gyproc Plank</td> </tr> <tr> <td>Layer 2:</td> <td>12.5mm Gyproc WallBoard</td> </tr> <tr> <td>Layer 3:</td> <td>12.5mm Gyproc FireLine</td> </tr> <tr> <td>Layer 4:</td> <td>12.5mm Gyproc FireLine</td> </tr> </table>	Layer 1 (Inner):	19mm Gyproc Plank	Layer 2:	12.5mm Gyproc WallBoard	Layer 3:	12.5mm Gyproc FireLine	Layer 4:	12.5mm Gyproc FireLine
Layer 1 (Inner):	19mm Gyproc Plank								
Layer 2:	12.5mm Gyproc WallBoard								
Layer 3:	12.5mm Gyproc FireLine								
Layer 4:	12.5mm Gyproc FireLine								
Screw fixings for boarding:	<table border="0"> <tr> <td>Layer 1 (Inner):</td> <td>45mm Gyproc Drywall Screws</td> </tr> <tr> <td>Layer 2:</td> <td>60mm Gyproc Drywall Screws</td> </tr> <tr> <td>Layer 3:</td> <td>25mm Gyproc Drywall Screws</td> </tr> <tr> <td>Layer 4:</td> <td>35mm Gyproc Drywall Screws</td> </tr> </table>	Layer 1 (Inner):	45mm Gyproc Drywall Screws	Layer 2:	60mm Gyproc Drywall Screws	Layer 3:	25mm Gyproc Drywall Screws	Layer 4:	35mm Gyproc Drywall Screws
Layer 1 (Inner):	45mm Gyproc Drywall Screws								
Layer 2:	60mm Gyproc Drywall Screws								
Layer 3:	25mm Gyproc Drywall Screws								
Layer 4:	35mm Gyproc Drywall Screws								

All board joints installed staggered in accordance with Gyproc's current installation recommendations.

- Joints in face layer boards treated in accordance with **Gyproc Paper Joint Tape** method.
- Gyproc DryWall screws installed at 230mm centres within the field of the board and 150mm centres along board ends.
- Gyproc DryWall screws must maintain a minimum 10mm penetration through metal framing components.
- **Gyproc Wafer Head Jack-Point Screws** used to fix Gypframe metal components together.

Insulation Component

50mm Isover Modular Roll in Cavity

Finishing

2mm **Gyproc Skimcoat** plaster (or **Carlite Finish**) applied in accordance with Gyproc's current recommendations.

Or

1 coat of **Gyproc Drywall Primer** prior to direct decoration (applied as soon as possible after board fixing is completed).

Qualifications

All materials unless otherwise indicated shall be supplied by Gyproc, and shall be installed in accordance with their current published instructions and generally in accordance with all relevant Standards. Systems installed in full accordance with Gyproc's recommendations comprising of genuine Gyproc and Isover branded components qualify for the SpecSure lifetime system warranty.

SpecSure®

Health & Safety

Ensure that suitable personal protection is worn when handling Gyproc and Isover products/systems. All relevant Health and Safety Legislation and Guidelines must be followed. The relevant Material Safety Data Sheets must be referred to prior to specifying, handling or installing Gyproc & Isover products and systems.

Installation

For full installation assistance refer to Gyproc Systems Solutions and Installation Guide literature which is available at www.gyproc.ie. Alternatively contact the Technical Service department at 1800 744480 (Rol) or 0845 3990159 (NI). Full specification, detailing and site support can be offered for your project specific requirements.
