

SpecSure[®]
GYPROC SYSTEMS GUARANTEE

SpecSure[®] is a unique guarantee that confirms Gyproc proprietary systems¹ will perform as specified in a building². By choosing a Gyproc system developed, tested and supported by Ireland's leading drywall specialist, you're protecting the future of your building and its users.

The Gyproc promise

SpecSure[®] is our guarantee that the Gyproc system you have chosen:

- Comprises only the highest quality components, designed to work together to deliver the specified level of performance
- Has been developed utilising the technical expertise and experience of Ireland's leading drywall specialists
- Has been tested in UKAS accredited fire, acoustic and structural test laboratories. We regularly retest our products to ensure consistency of performance when incorporated within our systems
- Will achieve specified performance as claimed and will continue to do so throughout the life of the building
- Will be repaired or replaced by Gyproc in the unlikely event of system performance failure attributed to a defective product

To qualify for SpecSure[®]

- Specify, install and finish Gyproc systems in line with our recommendations provided in the current Gyproc White Book or written guidance provided by our technical support teams
- The systems must comprise only genuine Gyproc and Isover components where specified. We cannot guarantee that the use of other manufacturers' components will meet our rigorous performance and quality standards when installed in our tested systems

SpecSure[®] - guaranteeing the future of drywall

For further information on SpecSure[®] system guarantee, contact our Technical Department on **ROI 1800 744480 & NI 0845 399 0159**, or email **enquiries@gyproc.ie**. Alternatively, visit **gyproc.ie**

Padraig Barry
Managing Director Gyproc Ireland

¹ Proprietary systems and Gyproc systems refers to our drylining systems that are based on Gyproc Gypframe metal framing components. Timber framed walls and floors are not covered by our SpecSure Guarantee.

² Performance specification as detailed in our published literature or from formal written technical specifications issued by our technical team.

All together covered

What you get with SpecSure®

Guaranteed performance

The systems are purpose-designed by Ireland's leading experts in drywall construction and supported by an ongoing product quality assurance scheme which includes regular testing at UKAS accredited testing laboratories. The Building Test Centre's facilities are amongst the best-equipped and most advanced drywall testing facilities in Europe, where full scale systems can be tested for fire and acoustic performance and structural integrity. We have more than 13,000 actual test and substantiation reports already available to underpin the performance of Gyproc systems.

The best components

All Gyproc systems are precision engineered to provide the right level of performance for your building. They comprise high quality branded components designed specifically to work together to provide the widest range of wall, ceiling, floor and encasement solutions in Ireland. We have rigorous checks in place to ensure on going quality control.

Full technical support

Gyproc is Ireland's leading authority on drywall systems, with a full team of qualified technical advisors to help with:

- Full technical support from our specification team across the Island of Ireland at the design stage, including specification advice and provision of NBS clauses, BIM and CAD details if required
- Training options available on site or through our Technical Academies of operatives, supervisory personnel, specifiers and main contractors

The backing of the world leader in construction products

Gyproc is the recognised Irish authority on drywall systems, with expertise and experience gained over 80+ years of supporting the Irish construction industry. Gyproc is part of Saint-Gobain, a world leader in the design, production and distribution of construction materials, which create great living spaces and improve daily life. Saint-Gobain is the number one Worldwide in gypsum and acoustic ceilings.
