

TIMBER PARTY WALL LINING WITH SERVICES

MEETS BUILDING REGULATIONS

ENERGY EFFICIENT

FIXING STRENGTH

DURABILITY

SOUND PROOFING

Ideal wall lining if you require a void for services. Gyproc plasterboards are versatile when used as the internal lining to timber frame walls and allow for the creation of a void for the location of services.

With a range of plasterboard types to choose from you can create a modern internal environment offering comfort and safety for the occupants.

Installation

Cut 70mm Isover Acoustic Roll to required size to ensure tight fit. Friction fit insulation in the stud cavity. Fix the Vario membrane and accessories, and then fix the Gyproc Plank and Gyproc WallBoard to the framing members using Gyproc Drywall Screws. Timber battens are fixed as required to support the location of services. Fix the Gyproc Habito plasterboard using Gyproc High Performance Drywall Screws. The board can then be finished with a 2mm final coat of Gyproc Finish Plaster such as Gyproc Skimcoat or Gyproc Carlite Finish.

Components needed

 <p>Isover Acoustic Roll A mineral wool roll providing a high level of acoustic insulation in partitions.</p>	 <p>Isover Vario Membrane Isover's intelligent, reinforced, laminated water vapour retardant climate membrane with a moisture-variable sd of 0.3m to 5m.</p>	 <p>Gyproc Plank A 19mm version of Gyproc WallBoard that gives increased sound insulation.</p>	 <p>Gyproc WallBoard The standard gypsum plasterboard used for many applications where basic fire, structural and acoustic performance levels are specified.</p>
 <p>Gyproc Drywall Screws For fixing plasterboard to timber frames.</p>	 <p>Gyproc Habito A revolutionary new plasterboard that provides enhanced acoustic performance, impact resistance and direct fixing capabilities, allowing you to hang 15kg from one 5mm woodscrew.</p>	 <p>Gyproc High Performance Drywall Screws Designed for fixing Gyproc Habito plasterboard to metal and timber framing sections.</p>	 <p>Gyproc Finish Plaster Gyproc Skimcoat or Gyproc Carlite Finish are finishing plasters that provide the highest quality aesthetic finish.</p>
