

TIMBER PARTY WALL LINING

MEETS BUILDING REGULATIONS

ENERGY EFFICIENT

FIXING STRENGTH

DURABILITY

SOUND PROOFING

Gyproc plasterboards are the ultimate lining solution for today's houses providing high levels of acoustic, thermal, impact resistance and fixing capability creating the perfect home environment for everyone.

Gyproc plasterboard linings are quick and easy to install and when skimmed with Gyproc Finish Plaster the lining gives a superior, traditional finish.

Installation

Cut 70mm Isover Acoustic Roll to required size to ensure tight fit. Friction fit insulation in the stud cavity. Fix the Vario membrane and accessories. Fix two layers of Gyproc Habito plasterboard using Gyproc High Performance Drywall Screws. The board can then be finished with a 2mm final coat of Gyproc Finish Plaster such as Gyproc Skimcoat or Gyproc Carlite Finish.

PARTY WALLS

Components needed

Isover Acoustic Roll

A mineral wool roll providing a high level of acoustic insulation in partitions.

Isover Vario Membrane

Isover's intelligent, reinforced, laminated water vapour retardant climate membrane with a moisture-variable sd of 0.3m to 5m.

Gyproc Habito

A revolutionary new plasterboard that provides enhanced acoustic performance, impact resistance and direct fixing capabilities, allowing you to hang 15kg from one 5mm woodscrew.

Gyproc High Performance Drywall Screws

Designed for fixing Gyproc Habito plasterboard to metal and timber framing sections.

Gyproc Finish Plaster

Gyproc Skimcoat or Gyproc Carlite Finish are finishing plasters that provide the highest quality aesthetic finish.
