

SAFETY DATA SHEET

This safety data sheet was created pursuant to the requirements of: Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008

Issuing Date 09-Dec-2020 Revision Date 09-Dec-2020 Revision Number 1

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product Name Gyproc Drywall Primer

Contains 2-Methyl-2H-isothiazol-3-one, 1,2-benzisothiazol-3(2H)-one

1.2. Relevant identified uses of the substance or mixture and uses advised against

Recommended use Primers

Uses advised against No specific uses advised against are identified

1.3. Details of the supplier of the safety data sheet

Supplier

Saint-Gobain Construction Products (Ireland) Limited Unit 4 Kilcarbery Business Park Nangor Road Dublin 22 D22 R2Y7 Ireland

Tel: +353 (0)1 629 8444

For further information, please contact

E-mail address enquiries@gyproc.ie

1.4. Emergency telephone number

Emergency telephone ROI: 1800 744480

NI: 0845 3990159

(Monday - Friday, 9am - 5pm)

National Poisons Information Centre (Ireland): +353 (1) 809 2166

Europe emergency contact number: 112

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Regulation (EC) No 1272/2008

Skin sensitisation Category 1 - (H317)

2.2. Label elements

Contains 2-Methyl-2H-isothiazol-3-one, 1,2-benzisothiazol-3(2H)-one

Hazard statements

H317 - May cause an allergic skin reaction

Precautionary Statements - EU (§28, 1272/2008)

P102 - Keep out of reach of children

P261 - Avoid breathing dusts or mists

P280 - Wear protective gloves/protective clothing and eye/face protection

P302 + P352 - IF ON SKIN: Wash with plenty of water and soap

P333 + P313 - If skin irritation or rash occurs: Get medical advice/attention

P501 - Dispose of contents/ container in accordance with national regulations

Additional information

VOC Labelling

EU: (cat A/g): 30 g/l (2010). This product contains a maximum VOC content of 3.0 g/l

<u>2.3. Other hazards</u>
The product does not contain any substance(s) classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable

3.2 Mixtures

| Chemical name | Weight-% | REACH registration number | EC No | Classification according to Regulation (EC) No. 1272/2008 [CLP] | Specific concentration limit (SCL) | M-Factor | M-Factor (long-term) |

[[]C] - Components with occupational exposure limits and/or biological occupational exposure limits requiring monitoring

Full text of H- and EUH-phrases: see section 16

Acute Toxicity Estimate

If LD50/LC50 data is not available or does not correspond to the classification category, then the appropriate conversion value from CLP Annex I, Table 3.1.2, is used to calculate the acute toxicity estimate (ATEmix) for classifying a mixture based on its components

| Chemical name | Oral LD50 | Dermal LD50 | | Inhalation LC50 - 4 hour - vapour - mg/L | |
|---|-----------|-------------|------|---|---|
| Bronopol 52-51-7 | 193 | 1600 | - | - | • |
| 1,2-benzisothiazol-3(2H)-o ne 2634-33-5 | 490 | >2000 | - | - | - |
| 2-Methyl-2H-isothiazol-3-o ne 2682-20-4 | 120 | 242 | 0.11 | - | - |

This product does not contain candidate substances of very high concern at a concentration >=0.1% (Regulation (EC) No. 1907/2006 (REACH), Article 59)

SECTION 4: First aid measures

4.1. Description of first aid measures

General advice Show this safety data sheet to the doctor in attendance.

Inhalation Remove person to fresh air and keep comfortable for breathing. Get medical attention

immediately if symptoms occur. Administer oxygen if breathing is difficult.

Eye contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes.

Remove contact lenses, if present and easy to do. Continue rinsing. Keep eye wide open while rinsing. Do not rub affected area. Get medical attention if irritation develops and

persists.

Skin contact Wash skin with soap and water. Get medical attention if irritation develops and persists. In

the event of any sensitisation symptoms developing, ensure further exposure is avoided.

Ingestion Clean mouth with water and drink afterwards plenty of water. Get medical attention if

symptoms occur. Do not induce vomiting without medical advice. If vomiting occurs spontaneously, keep head below hips to prevent aspiration. Never give anything by mouth

to an unconscious person.

Self-protection of the first aider

Remove all sources of ignition. Ensure that medical personnel are aware of the material(s)

involved, take precautions to protect themselves and prevent spread of contamination. Wear personal protective clothing (see section 8). Avoid contact with skin, eyes or clothing.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms May cause allergic skin reaction. Ingestion may cause gastrointestinal irritation, nausea,

vomiting and diarrhoea. Prolonged or repeated contact may dry skin and cause irritation.

May cause temporary eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

Note to doctors Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable Extinguishing Media Dry chemical. Carbon dioxide (CO2). Water spray. Alcohol resistant foam. Use

extinguishing agent suitable for type of surrounding fire.

Unsuitable extinguishing media Full water jet.

5.2. Special hazards arising from the substance or mixture

Specific hazards arising from the

chemical

Keep product and empty container away from heat and sources of ignition. In the event of

fire, cool tanks with water spray.

Hazardous combustion products

Carbon oxides. Carbon monoxide.

5.3. Advice for firefighters

Specific/special fire-fighting

measures

Fires need to be assessed to determine appropriate protocols and safety measures for firefighting, including establishing safe zones, extinguishing media to be used, firefighter protection, and actions to control or extinguish the fire. Move containers from fire area if you can do it without risk. Cool containers with flooding quantities of water until well after fire is

out.

Special protective equipment for

fire-fighters

Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear. Use personal protection equipment.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions Keep people away from and upwind of spill/leak. Ensure adequate ventilation. Avoid

breathing vapours or mists. Avoid contact with skin, eyes or clothing. Wash thoroughly after handling. Do not touch or walk through spilled material. Do not handle until all safety precautions have been read and understood. Wear personal protective clothing (see

section 8).

6.2. Environmental precautions

Environmental precautions Local authorities should be advised if significant spillages cannot be contained. Avoid

release to the environment.

6.3. Methods and material for containment and cleaning up

Methods for containment Prevent further leakage or spillage if safe to do so.

Methods for cleaning up Clear up spills immediately and dispose of waste safely. Small spill: Wipe up with absorbent

material (eg. cloth, fleece). Large spill: Cover liquid spill with sand, earth or other noncombustible absorbent material. Pick up and transfer to properly labelled containers.

After cleaning, flush away traces with water. Wash thoroughly after handling.

Prevention of secondary hazards Clean contaminated objects and areas thoroughly observing environmental regulations.

6.4. Reference to other sections

Reference to other sectionsSee section 8 for more information. See section 13 for more information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling Keep out of reach of children. Handle in accordance with good industrial hygiene and safety

practice. Read carefully and follow all instructions. Wear personal protective equipment. See section 8 for more information. Avoid contact with skin and eyes. Avoid breathing vapours or mists. Keep away from food, drink and animal feedingstuffs. Keep container

closed when not in use.

General hygiene considerations Wash hands before breaks and immediately after handling the product. Do not eat, drink or

smoke when using this product. Take off all contaminated clothing and wash it before reuse. Contaminated work clothing should not be allowed out of the workplace.

7.2. Conditions for safe storage, including any incompatibilities

Storage Conditions Keep containers tightly closed in a dry, cool and well-ventilated place. Keep container

upright. Store in accordance with local regulations. Store away from incompatible materials.

7.3. Specific end use(s)

Specific use(s).

The identified uses for this product are detailed in Section 1.2

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Exposure Limits .

Biological occupational exposure limits .

Derived No Effect Level (DNEL) No information available.

Predicted No Effect Concentration (PNEC) No information available.

8.2. Exposure controls

Engineering controls Ensure adequate ventilation, especially in confined areas. As this product contains

ingredients with exposure limits, process enclosures, local exhaust ventilation or other engineering controls should be used to keep worker exposure below any statutory or recommended limits, if use generates dust, fumes, gas, vapour or mist. Provide extract ventilation at the points where emissions occur. Ensure the ventilation system is regularly

maintained and tested.

Personal protective equipment

Eye/face protection Eye protection must conform to standard EN 166. If there is a risk of contact:. Tight sealing

safety goggles.

Hand protection Gloves must conform to standard EN 374. Wear suitable gloves. Ensure that the

> breakthrough time of the glove material is not exceeded. Refer to glove supplier for information on breakthrough time for specific gloves. Considering the data specified by the glove manufacturer, check during use that the gloves are retaining their protective properties and change them as soon as any deterioration is detected. Frequent changes

are recommended.

Wear suitable protective clothing. Skin and body protection

Respiratory protection No protective equipment is needed under normal use conditions. If exposure limits are

> exceeded or irritation is experienced, ventilation and evacuation may be required. In case of insufficient ventilation, wear suitable respiratory equipment. Ensure all respiratory protective equipment is suitable for its intended use and is 'CE'-marked. Check that the respirator fits

tightly and the filter is changed regularly.

General hygiene considerations Wash hands before breaks and immediately after handling the product. Do not eat, drink or

smoke when using this product. Take off all contaminated clothing and wash it before reuse. Contaminated work clothing should not be allowed out of the workplace.

Environmental exposure controls Prevent product from entering drains.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Liquid

Colour According to product specification

Odour Characteristic

Odour threshold No information available

Values Remarks • Method **Property** Melting point / freezing point No data available None known

Initial boiling point and boiling No data available None known

range

Flammability No data available None known Flammability Limit in Air None known

Upper flammability or explosive No data available

limits

Lower flammability or explosive No data available

limits

No data available Flash point None known **Autoignition temperature** No data available None known **Decomposition temperature** None known pН

No data available None known pH (as aqueous solution) No data available

No information available Kinematic viscosity No data available None known Dynamic viscosity No data available None known

Water solubility Immiscible in water None known Solubility(ies) No data available None known Partition coefficient No data available None known Vapour pressure No data available None known Relative density No data available None known

Bulk density No data available **Liquid Density** No data available

Vapour density No data available None known

Particle characteristics

Particle Size No information available **Particle Size Distribution** No information available

9.2. Other information

9.2.1. Information with regards to physical hazard classes

Not applicable

9.2.2. Other safety characteristics

No information available

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity None under normal use conditions.

10.2. Chemical stability

Stability Stable under normal conditions.

Explosion data

Sensitivity to mechanical impact None. Sensitivity to static discharge None.

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions None under normal processing.

10.4. Conditions to avoid

Conditions to avoid Keep from freezing. Heat.

10.5. Incompatible materials

Incompatible materials Acids.

10.6. Hazardous decomposition products

Hazardous decomposition products None under normal use conditions. Thermal decomposition can lead to release of irritating

gases and vapours.

SECTION 11: Toxicological information

11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Information on likely routes of exposure

Product Information .

Inhalation Specific test data for the substance or mixture is not available.

Eye contact Specific test data for the substance or mixture is not available. May cause temporary eye

irritation.

Skin contact May cause sensitisation by skin contact. Specific test data for the substance or mixture is

not available. Repeated or prolonged skin contact may cause allergic reactions with susceptible persons. (based on components). Prolonged or repeated contact may dry skin

and cause irritation.

Ingestion Specific test data for the substance or mixture is not available. May cause gastrointestinal

discomfort.

Symptoms related to the physical, chemical and toxicological characteristics

Symptoms

Itching. Rashes. Hives. Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhoea. May cause temporary eye irritation.

Numerical measures of toxicity

.

Based on available data, the classification criteria are not met

Component Information

| Chemical name | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|------------------------------|--------------------|--------------------|--------------------------------|
| Kaolin | > 5000 mg/kg (Rat) | > 5000 mg/kg (Rat) | - |
| Bronopol | = 193 mg/kg (Rat) | = 1600 mg/kg (Rat) | > 5 g/m ³ (Rat) 6 h |
| 1,2-benzisothiazol-3(2H)-one | 490 mg/kg (Rat) | > 2000 mg/kg (Rat) | - |
| 2-Methyl-2H-isothiazol-3-one | = 120 mg/kg (Rat) | = 242 mg/kg (Rat) | = 0.11 mg/L (Rat) 4 h |

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Skin corrosion/irritationBased on available data, the classification criteria are not met.

| Component Information | | | | |
|--|--|--|--|--|

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

STOT - single exposure

Based on available data, the classification criteria are not met.

STOT - repeated exposure

Based on available data, the classification criteria are not met.

Aspiration hazard

Not applicable.

11.2. Information on other hazards

11.2.1. Endocrine disrupting properties

Endocrine disrupting properties This product does not contain any known or suspected endocrine disruptors.

11.2.2. Other information

Other adverse effects None known based on information supplied.

SECTION 12: Ecological information

12.1. Toxicity

Ecotoxicity

Based on available data, the classification criteria are not met.

| Chemical name | Algae/aquatic plants | Fish | Toxicity to | Crustacea |
|------------------------------|----------------------|------------------------|------------------------|------------------------|
| | | | microorganisms | |
| 1,2-benzisothiazol-3(2H)-one | EC50: 150 µg/L (72h, | LC50: 16.7 mg/L (96h, | EC50: 13 mg/L | EC50: 2.9 mg/L (48h, |
| | Pseudokirchneriella | Cyprinodon variegatus) | (3h, Activated sludge) | Daphnia magna) |
| | subcapitata) | | | |
| 2-Methyl-2H-isothiazol-3-one | EC50: >0.072 mg/L | LC50: 4.77 mg/L (96h, | EC50: 41 mg/L (3h, | LC50: 0.934 mg/L (48h, |
| | (72h, Skeletonema | Oncorhynchus mykiss) | Activated sludge) | Daphnia magna) |
| | costatum) | | | |

12.2. Persistence and degradability

Persistence and degradability No information available.

| Component Information | | | | | | |
|---|--|-------|---------------------------|--|--|--|
| 1,2-benzisothiazol-3(2H)-one (2634-33 | 1,2-benzisothiazol-3(2H)-one (2634-33-5) | | | | | |

| OECD Test No. 301C: Ready Biodegradability: Modified MITI Test (I) (TG 301 C) | 1 | 85% | Not readily biodegradable | | | |

| 2-Methyl-2H-isothiazol-3-one (2682-20-4) | | | | |
|--|---------------|--------------|---------------------------|--|
| Method | Exposure time | Value | Results | |
| OECD Test No. 301B: Ready | 29 days | 47.6 - 55.8% | Not readily biodegradable | |
| Biodegradability: CO2 Evolution Test | _ | | - | |
| (TG 301 B) | | | | |

12.3. Bioaccumulative potential

Bioaccumulation There is no data for this product.

Component Information

| Chemical name | Partition coefficient |
|------------------------------|-----------------------|
| 1,2-benzisothiazol-3(2H)-one | 0.7 |
| 2-Methyl-2H-isothiazol-3-one | -0.486 |

12.4. Mobility in soil

Mobility in soil No information available.

Mobility Immiscible in water.

12.5. Results of PBT and vPvB assessment

PBT and vPvB assessment

The product does not contain any substance(s) classified as PBT or vPvB.

| Chemical name | PBT and vPvB assessment |
|------------------------------|---------------------------------|
| Bronopol | The substance is not PBT / vPvB |
| 1,2-benzisothiazol-3(2H)-one | The substance is not PBT / vPvB |
| 2-Methyl-2H-isothiazol-3-one | The substance is not PBT / vPvB |

12.6. Endocrine disrupting properties

Endocrine disrupting properties This product does not contain any known or suspected endocrine disruptors.

12.7. Other adverse effects

No information available. Other adverse effects

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste from residues/unused

products

Recover or recycle if possible. Dispose of in accordance with local regulations. Dispose of waste in accordance with environmental legislation. This material and its container must be

disposed of in a safe way.

Contaminated packaging

Since empty containers retain product residue, follow label warnings even after container is

emptied. Recover or recycle if possible.

Waste codes / waste designations

according to EWC / AVV

According to the European Waste Catalogue, Waste Codes are not product specific, but application specific. Waste codes should be assigned by the user based on the application for which the product was used.

SECTION 14: Transport information

Legend

SVHC: Substances of Very High Concern for Authorisation:

Legend Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

TWA (time-weighted average) STEL STEL (Short Term Exposure Limit) TWA

Ceiling Maximum limit value Skin designation

| Classification procedure | |
|---|--------------------|
| Classification according to Regulation (EC) No. 1272/2008 [CLP] | Method Used |
| Acute oral toxicity | Calculation method |
| Acute dermal toxicity | Calculation method |
| Acute inhalation toxicity - gas | Calculation method |
| Acute inhalation toxicity - Vapour | Calculation method |
| Acute inhalation toxicity - dust/mist | Calculation method |
| Skin corrosion/irritation | Calculation method |
| Serious eye damage/eye irritation | Calculation method |
| Respiratory sensitisation | Calculation method |
| Mutagenicity | Calculation method |

| Carcinogenicity | Calculation method |
|--------------------------|--------------------|
| Reproductive toxicity | Calculation method |
| STOT - single exposure | Calculation method |
| STOT - repeated exposure | Calculation method |
| Acute aquatic toxicity | Calculation method |
| Chronic aquatic toxicity | Calculation method |
| Aspiration hazard | Calculation method |
| Ozone | Calculation method |
